

CANADIAN LAKEHEAD WIRELESS EXPERIMENTERS

Meeting, November 29th, 1937

The members of the club met in the dining room of the G. B. Tearoom for a turkey dinner. The meal was enjoyed by all.

After dinner the President, Chas. MacDonald called the meeting to order. The minutes of the last meeting were read and adopted on a motion by B. Lightfoot seconded by E. Lambert.

A discussion followed about a member entertaining other members at his or her home. It was left for each member to decide this for himself.

Mr. O'Shea then gave a talk on the correct procedure for amateurs to use during their transmissions of the air.

Following this Mr. MacDonald read an article on the best kinds of aerial installations called, "Are you a worm warmer?" There was much discussion on this article, the members aired their views on the subject.

After a general rag chew the next meeting was set for some time in January, 1938.
