

Lakehead Amateur Radio Club

Port Arthur

September 1957

Fort William

The first Fall meeting of the L.A.R.C. will be held in the Club Room at the Fort William Police Station on Tuesday September 24th at 8:15 pm. We would like to see everybody out - to get things started in a big way.

We are actually a week behind schedule - after next Tuesday's meeting we will return to the usual date of every third Tuesday each month.

Our President, Pat O'Shea - VE3FW has gone to Montreal for a month but we will have in the Chair, our genial Vice President, JC Bailey - VE3DGZ.

For those who were unable to attend the Grand Marais Picnic, we will hear a full report on what took place. At this time, it is sufficient to say that it was a highly successful affair with the largest yet attendance of VE's.

The Club House awaits completion. There is a lot of work to be done on this project before the weather gets colder if we are to make use of these new quarters. There is a lot of team work required to a revamp of the interior, set up equipment, install a heating system and get the antenna array back in shape. The vote to purchase the Club House was almost unanimous and it is now up to the membership to demonstrate a desire to step in and finish the job. We should keep in mind that additional funds are required to finish this job properly and all members should keep their annual dues paid up.

Miscellaneous ORM and ORM

- VE3DMZ - Hec Wilson - We regret to have to report that Hec is in the hospital. Hec is having a rest in McKeller for a few weeks. All members are requested to drop in - one at a time.
- VE3FW - Pat and VE3DMX - Della O'Shea have gone to Montreal and will be gone for a month. We all wish them a good trip but don't be gone too long.
- VE3AYZ - Les Harris is back in town, working with the local RI. Hope to see you at the meeting, Les.
- ex VE3ARK - Bob Shearer is now signing VE1BR, the new QTH is St. Johns N.B. He sends 73 to the gang - look for Bob on 10 and 20 Metres.
- VE3HU - Ralph Parker turned up at the Club House recently. He threatens to get back on the air with a Collins KW. Beware the TVI, Ralph.
- VE3BYG - George Lord had an active summer, putting up poles and aerials. Now he is active again, educating our youth on the day shift.
- VE3BPZ - Choppy Walsh is on annual vacation and is active on 20 Metres. This also applies to:
- VE3ANP - Bert Tamblin except that Bert's vacation is next September.
- VE3AIT - Harry Stephens has acquired a new receiver. This puts Harry in a special class. Why? Because it's an HRO.50. Better keep it in the Strong Room.
- VE3DPJ - Peter Boyle is putting up a 3 band cubical quad. Pete is really going after the DX.

Special door prize coming up for the next meeting.
