

13 October 1966

Lakehead Amateur Radio Club

The monthly meeting of the Lakehead Amateur Radio Club was held Thursday evening September 13 in the Civil Defence Building, with 17 amateurs and associates in attendance.

The meeting was chaired by Doc Tarnow - VE3FSE.

The meeting was called to order at eight o'clock and the minutes of the last meeting were accepted as read.

The usual roll call was heard and it was noticed that not too many of those present were able to give an account of their on the air activities, perhaps things will pick up this winter.

The only item of new business was the idea of having someone take pictures of the local amateurs at their operating positions in their stations, and have a copy posted in the shack of the Club station, VE3ZCD. Wolfe Boggs - VE3EFV agreed to put the bite on Les Harris - VE3AYZ and see if he would be agreeable to taking the pictures. The Club to pay for the film and the processing.

Following this portion of the meeting the floor was turned over to Don Brown - VE3EDJ who had agreed to assume the duties of Auctioneer for the Club's Annual Auction. Under his high pressure, about \$25.00 worth of gear changed hands. The 10% clause in his contract netted the Club \$2.75. While there were many worthwhile bargains to be had, it seems that most amateurs now lean towards strictly commercial gear and are not too interested in construction projects. All in all, it was a very worthwhile endeavour. Our ths to Don.

Only six full memberships were sold during the evening, along with three associate memberships. A friendly reminder fellows?

The meeting adjourned at 10 o'clock.

Signed:

R. H. Browning - VE3EEM
Secretary Treasurer
