

Annual Dinner Meeting, February 1976

Lakehead Amateur Radio Club

*From March 1976 High-Q; Bill Unger - VE3EFC and
Phil Moorey - VE3AXL Editors.*

This month I will skip the normal (*High-Q*) introduction and take you back in time, almost one month ago, to our February meeting. It was nice to see all the faces that don't normally make it to the meetings and hopefully we will see some of these people at our March meeting. First, we should complement the cook (or rather chef), the meal was very good indeed. As is the case with most of our dinners meetings everyone was in good spirits (they should be, refreshments were \$0.60 a glass) and the dinner went without a hitch.

After everything was cleared away we were given a talk by Jim Wheeler - VE3EEG on the Canadian Armed Forces Communications Division. All was going well till somebody heard sirens in the background, the only trouble was that they were getting louder and louder. Well you guessed it, the hotel's fire alarm went off. Then it the fun began. All we saw of Vic Bel - VE3ECV was the soles of his shoes, Phil Moorey - VE3AXL wanted to stop and see how the fire alarm worked and John P. Hastie - VE3EFA was the calmest of all, he closed the bar. We were all about half way out when we found it was a false alarm. The only one who was not flustered in the excitement was Greg Kasstan - VE3HXX, he wanted to save somebody else's coat (the first one he could get his hands on) and had two different boots on! But otherwise he was fine.
